Bring Cyber-Seniors to Your Community!

CYBER-SENIORS, a humorous and heart-warming documentary which chronicles the extraordinary journey of a group of colorful senior citizens and their equally engaging teenage mentors as the seniors discover the world of the Internet.

GET INVOLVED IN THE 'CYBER-SENIORS – CONNECTING GENERATIONS' CAMPAIGN

The goal of this campaign is to inspire older adults to tackle the digital divide and encourage tech savvy youth to make a difference in their community. We aim to spark a conversation about tech literacy and stimulate action through intergenerational collaboration.

We believe that step one is inspiration, and step two is action. And that together, we can create change.

HOST A SCREENING in your community. Whether your community is your town, your school, your club or your place of work, we will work with you to create a fun, engaging, all-age event, that will create visibility for your organization and community partners.

PROMOTE THE CAMPAIGN to others. We have made it easy for you to help us spread the word and engage others. Download a **Community Outreach Toolkit** from our website and organize a presentation at your school, community center, work place, etc.

PARTICIPATE IN A CYBER-SENIORS PROGRAM by visiting our website. **Take the Pledge** and visit our **Get Involved** page to access valuable resources and tools. We encourage organizations to register as a partner so we can start working together to bridge the digital divide.

For more information on the film, upcoming contests and to access valuable resources visit us at www.cyberseniorsdocumentary.com
