## When You Attend Horizons 2015 You Will:

1. Become Energy Smart: Learn how to reduce your energy expenses through energy efficiency and renewable energy tools and programs offered by DC's Sustainable Energy Utility, Pepco and Washington Gas.
2. Find out about DC's new frontier in local energy production – Microgrids – and how they will be important for achieving electric reliability, green jobs and energy security.
3. Hear about community institutions and government agencies in our city that are using solar energy to save money and encourage sustainability.
4. Learn how DC's Power Line undergrounding project is expected to reduce power outages and improve reliability.
5. Learn how seniors can use easy-to-access tools on the internet to track and manage their energy expenses.
6. Be informed about the environmental and public safety issues related to our natural gas pipelines and how Washington Gas is addressing those issues.
